Annual Green Awards 2023-24

Dear Students,

We are pleased to announce the application for the Annual Green Awards 2023 program at St. Francis World School., Meerut This initiative aims to recognize and appreciate outstanding efforts made by SFITES in contributing towards environmental conservation.

The Green Awards program will serve as a platform to acknowledge your active participation in activities related to environmental sustainability and the preservation of our planet. We believe that every small step towards a greener future is worth celebrating and inspiring others to follow suit.

The program will encompass various categories, including but not limited to:

- 1. Plantation & Green Spaces:** Initiatives in tree planting, afforestation and creating green spaces.
- 2. Waste Management:** Excel in waste reduction, recycling, and promoting sustainable waste management practices.
- 3. Energy Conservation:** Contribute to energy-saving initiatives, such as turning off lights when not in use, conserving water, and promoting renewable energy sources.
- 4. Biodiversity Preservation:** Activities related to preserving biodiversity, such as tree plantation drives, creating awareness about endangered species, and protecting natural habitats.
- 5. Sustainable Innovation:** Innovative ideas and projects to promote sustainable practices and solutions for environmental challenges.
- 6. Community Engagement:** Engage with the community in spreading awareness about environmental conservation, organizing clean-up drives, or initiating sustainable initiatives.
- 7. Water Conservation:** Contributions in water conservation practices and promoting water sustainability.

To participate in the Green Awards program, students are requested to:

1. Select a category you wish to apply for and clearly mention it in your submission.
2. Prepare a brief write-up (not exceeding 300 words) explaining your contributions, initiatives, or projects related to the chosen category. Include relevant details such as the objectives, methodologies, and outcomes. You may include all previous achievements and recognitions received.
3. Compile any supporting evidence, such as photographs, videos, or testimonials, to substantiate their efforts. Please ensure that the submitted evidence is clear and identifiable.
4. Submit your entry to the respective Class Teacher no later than **July 4, 2023**.
5. Compilation to be presented for validation to the panelist by the participating student.

A panel of judges consisting of teachers and environmental experts will evaluate the entries based on creativity, impact, and sustainability. The winners will be announced during the Green Awards Ceremony, where they will receive recognition, certificates of appreciation, and prizes.

We encourage all students to actively participate in the Annual Green Awards and showcase their commitment to environmental conservation. Let us join hands to create a sustainable and greener future for our planet.

Let's make a difference and leave a positive imprint on the environment!

Best regards,

Principal
