VAN MAHOTSAV

CULMINATION

CELEBRATION

Meerut: St. Francis World School celebrated the culmination of Van Mahotsav, the nationwide tree plantation festival observed every year from 1st to 7th July, with great enthusiasm, reinforcing the message of environmental conservation and sustainable living. The programme was graced by Ms. Vandana Phogat, IFS, Divisional Forest Officer, as the Chief Guest, along with distinguished guests, Mr. Tushar Gupta, District Project Officer, Namami Gange, Meerut, and Dr. Kuldeep Sharma (The Green Warrior).

The programme began with the ceremonial lighting of the lamp and Saraswati Vandana, followed by the welcome of the dignitaries. Addressing the gathering, the Principal highlighted the school's commitment to environmental conservation through its Ganga Club and shared that, with the support of the Namami Gange Organisation, the school has undertaken the plantation of 1,000 saplings near Kali Nadi, Meerut. She also spoke about various environmental initiatives, including the Ganga Quiz, Ganga Katha, River Bank Clean-up

Campaign, Ganga Shapath, Ganga Aarti, and the selection of a River Prefect.

Students presented a graceful dance performance dedicated to Mother Nature, after which the Chief Guest distributed saplings among students. In her address, Ms. Vandana Phogat inspired students to become responsible guardians of nature. An interactive question-and-answer session further encouraged environmental awareness among the students.

The programme concluded with a Vote of Thanks and the National Anthem, leaving everyone inspired to contribute towards a greener and more sustainable future.

PLANTATION DRIVE

Celebrating the spirit of Van Mahotsav Week the young green ambassadors of SFWS enthusiastically participated in a Nutri Garden Activity, where they planted a variety of nutritious and medicinal plants.

Through this enriching hands-on experience, students learned that a Nutri Garden is much more than a collection of plants—it is a source of health, nutrition, and sustainability. They explored the nutritional value of different herbs and vegetables while understanding the importance of growing fresh food, protecting the environment, and adopting eco-friendly practices.

This meaningful initiative instilled the values of healthy living, environmental stewardship, and responsibility, inspiring our learners to care for nature and make mindful choices for a greener, healthier future.

VAN MAHOTSAV ACTIVITY

If your little one came home incredibly excited about a tiny seed, here is the beautiful story behind it!

At St. Francis World School, our tiny tots celebrated Van Mahotsav by getting their hands a little dirty and their hearts a lot fuller. We spent the day discovering the magic of trees- from the fresh air we breathe to the sweet fruits we eat and the cool shade we play in.

But the learning didn't stop in the classroom! To nurture a lifelong love for nature, every child was gifted a Moringa seed to take home. This isn't just about growing a plant; it is a beautiful way to teach our youngest learners about patience, daily care, and the big impact of small, responsible actions.

"Plant a seed today and grow a greener tomorrow!"

Parents, we want to be part of this journey! When you and your little gardener plant the seed at home, snap a picture, tag us on your stories, or tell us in the comments below! We can't wait to see the first little leaf sprout!

GOOD TOUCH & BAD TOUCH AWARENESS WORKSHOP

St. Francis World School organised a Good Touch & Bad Touch Awareness Workshop at kindergarten wing. Through interactive stories and activities, children learned about safe and unsafe touch, the importance of saying "NO", and speaking to a trusted adult.

Together, let's build a safe, confident, and happy environment for every child.
